The method of strain rate imaging by tissue Doppler was developed here at the Norwegian University of Science and Technology in Trondheim, Norway. It was the subject of two doctoral theses, one in technology () and one in medicine (), and was a result of a successful cooperation between technical research (in strain and velocity gradients) and medical research (in long axis function of the left ...

January 2013 Use of the Papanicolaou test has significantly decreased the incidence of cervical carcinoma, especially cervical squamous cell carcinoma. For endometrial adenocarcinoma, which is the most common malignancy of the gynecologic tract there is no cost-effective screening test. The Bethesda system 2001 recommends reporting normal endometrial cells in women 40 years or older and any ...
